

B₂B TIPs™

In today's competitive world, businesses continue to E-power in an increasing fashion. B₂B integration is becoming a way of life for businesses globally. This is a time-consuming task that can result in an overabundance of unnecessary time and information with costly results. With COMMON_d B₂B solutions, nothing will stand in your way.

We provide solutions ranging from feasibility studies up to and including total corporate integration that will help your organization take advantage of today's e-market.

COMMON_d B₂B TIPs™ can add power and convenience to your organization. We can define, design, deploy and manage your e-commerce, database technology, online catalog, shopping carts, RFQ carts, RFI carts and data integration for you and your business associates.

“What do I have?”

With COMMON_d B₂B solutions, our team will evaluate your current budget, processes, marketing strategy, design, technology, data base and business strategy. Our team can assist you to:

- ✓ Analyze your company, industry and competitors
- ✓ Gather your data and critical assets
- ✓ Determine marketing strategy
- ✓ Determine technical objectives
- ✓ Determine data content
- ✓ Plan site architecture

“What do we need?”

Our team identifies your critical issues. We will define, design and deploy a correct environment that enables proper communication between your heterogeneous applications and provides total access to your suppliers and customers with room for growth:

“Can I do more for less?”

Our due diligence methods combined with wide-ranging technological expertise and resources can help you thoroughly answer this critical question.
