

Security TIPS™

COMMON_d Security Technology Integration Practices (TIPS™) help you protect your network assets from unwanted intrusion.

COMMON_d Security TIPS™ methodology will give you a flexible and scalable architecture. Our security solution includes redundancy and protection to safeguard against network eavesdropping, data theft and manipulation, blockage, maliciousness, and unauthorized access. In addition, COMMON_d Security TIPS™ will provide a complete functional, modular and comprehensive security policy for your network infrastructure.

NETWORK SECURITY

Until your organization regards network security as a strategic business issue, your network will remain vulnerable. Rather than buy new software and systems, COMMON_d Security TIPS™ will assist your organization to focus on the correct security policy initiatives.

“What do I have?”

With COMMON_d Security TIPS™, your organization will benefit from a comprehensive assessment. Our methodology will equip you with a continuous policy for current and future security initiatives.

“What do we need?”

COMMON_d Security TIPS™ provides a blueprint for diverse security implementation. Our methodology uses a modular and best-in-breed approach throughout the process to integrate the security procedures into your existing network.

“Do you have response plan for a catastrophic breach of security?”

COMMON_d security TIPS™ recognizes the importance of this issue. We will help by focusing on the proper strategy, not on a plan to “buy more technology”.

“Can I do more for less?”

COMMON_d security TIPS™ can help you thoroughly answer this critical question.

BENEFITS

- ❑ Architecture for proper network security and superior functionality.
- ❑ Identify Penetration & Exposure:
 - ✓ Network Security Assessment and Audit
 - ✓ Risk assessments
 - ✓ Penetration tests
 - ✓ Security remediation services
 - ✓ Customization of security policies and procedures
- ❑ Provides the ability to define network vulnerabilities and block loopholes.
- ❑ Enables regulatory compliance.
- ❑ Increases productivity.
- ❑ Enables optimization for network monitoring and analysis.
- ❑ Provides accurate information and network platform for future security policy and technologies.

WHY COMMON_d

- ❑ **Outstanding People:** We have the very best consultants and professionals the industry has to offer.
- ❑ **Integrity:** We will do what is right, every time.
- ❑ **Excellence in Everything we do:** Excellence in everything we do is about quality and exceeding client expectations during and after the engagement process.
- ❑ **Focus:** Customer First, Last and Always.
- ❑ **Best-in-breed:** COMMON_d Security TIPS™ guarantees the neutrality of our deliverables. We will give you a consistent and uniform set of service parameters and solutions without the disposition of vendors or brands.
