

## Wireless Technology Integration Practices (TIPs™)

**COMMON<sub>d</sub> Wireless Technology Integration Practices (TIPs™)** gives you an effective wireless connectivity solution and greater mobility in addition to further flexibility and lower infrastructure cost.

Our Wireless Solution provides your organization with a secured and robust architecture. Our Wireless solution will optimize your capacity and cut your carrier cost.

With the COMMON<sub>d</sub> Mobility Solution, your organization will benefit from a lower cost and an alternative "last-mile access" solution. Our proven methodology will enable your organization to bypass and/or complement your traditional access technology offerings such as Fiber, DSL, or Cable.

### **“What do I have?”**

With COMMON<sub>d</sub> Wireless TIPs™, your organization will benefit from a comprehensive assessment for a precise deployment. Our methodology will equip you with a continuous policy for current and future wireless initiatives.

### **“What do I need?”**

COMMON<sub>d</sub> Wireless TIPs™ provides a blueprint for a robust wireless implementation. Our methodology uses a modular and best-in-breed approach throughout the process to help Design, Define, Deploy and Manage your total wireless network.

### **What can I incorporate?**

COMMON<sub>d</sub> Wireless TIPs™ seamlessly integrates into your organization end-to-end network technology.

Our team supports a wide range of business plans and deployment strategies. We provide your organization with uncompromised performance, wireline-grade link availability, end-to-end quality of service (QoS), security, provisioning, and management support.

### **“Can I do more for less?”**

COMMON<sub>d</sub> Wireless TIPs™ can help you thoroughly answer this critical question.

## **BENEFITS**

- ❑ Maximize your return on investment with the delivery of a modular wireless solution
- ❑ Provides an architecture for proper network security and superior functionality.
- ❑ Fast Provisioning of New World Data, Voice, and Video Services
- ❑ Faster time to market at a lower carrier cost.
- ❑ Reach into under-served markets.
- ❑ Efficient and Rapid deployment.
- ❑ No License Required.
- ❑ Freedom from using wireline local loops.
- ❑ Increases productivity.
- ❑ Manage all network elements to guarantee and maintain high quality of service (QoS).
- ❑ Provides a stable platform for future technologies and additional wireless initiatives.

## **WHY COMMON<sub>d</sub>**

- ❑ **Outstanding People:** We have the very best consultants and professionals the industry has to offer.
- ❑ **Integrity:** We will do what is right, every time.
- ❑ **Excellence in Everything we do:** Excellence in everything we do is about quality and exceeding client expectations during and after the engagement process.
- ❑ **Focus:** Customer First, Last and Always
- ❑ **Best-in-breed:** COMMON<sub>d</sub> Wireless TIPs™ guarantees the neutrality of our deliverables. We will give you a consistent and uniform set of service parameters and solutions without the disposition of vendors.
